Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Simply upload your file and share the link. Alternatively you can choose to share your download links on blogs, forums and social networking sites. File is free to use with no gotchas andno hidden fees. You can upload any type of file (movies, music, documents, images, zip files and more). We have no file size limit. It is also allowed to link tothe download page from websites and communities. So try our free and simple filehosting service now. If only we could, we surely would! On the other hand, using file can actually save you money. Keep your files private, or send your download links only to friends or family. The cost of that data transfer is coveredby your internet service or the data plan on your phone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. Youdon't need any special software installed to be able to download your files. Just upload the file you want to share with your friends and we send you a downloadlink to your file. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computeror phone and our servers, then from our servers to your friends device. Our service is completely free for everyone. Using file, you can circumvent those limits without paying to upgrade your team chat service. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. You can give this download link to your friends by mail or instant messenger. Unfortunately, we can't make that part free. There are no restrictions on the number of times a file can be downloaded. You decide who you want to share your files with. Files can be downloaded from any
