You decide who you want to share your files with. There are no restrictions on the number of times a file can be downloaded. Unfortunately, we can't make that part free. You can give this download link to your friends by mail or instant messenger. File is free to use with no gotchas and no hidden fees. You don't need any special software installed to be able to download your files. Simply upload your file and share the link. Our service is completely free for everyone. Just upload the file you want to share with your friends and we send you a download link to your file. filehosting provides an easy possibility for you to send large files to your friends. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. It is also allowed to link to the download page from websites and communities. If only we could, we surelywould! On the other hand, using file can actually save you money. Using file, you can circumvent those limits without paying to upgrade your team chatservice. Files can be downloaded from any computer from our high speed servers. The cost of that data transfer is covered by your internet service or the dataplan on your phone. We have no file size limit. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is beingtransferred between your computer or phone and our servers, then from our servers to your friends device. So try our free and simple filehosting service now. No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you moneyin data storage fees. Alternatively you can choose to share your download links on blogs, forums and social networking sites. When you use file, you avoidstoring the file you're sending in your cloud storage or mail server. You can upload any type of file (movies, music, documents, images, zip files an
