Maybe even better than free.

File is free to use with no gotchas and no hidden fees. Simply upload your file and share the link. You can upload any type of file (movies, music, documents, images, zip files and more). You decide who you want to share your files with. Just upload the file you want to share with your friends and we send you a download link to your file. So try our free and simple filehosting service now. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. Files can be downloaded from any computer from our high speed servers. It is also allowed to link to the download page from websites and communities. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Unfortunately, we can't make that part free. Thereare no restrictions on the number of times a file can be downloaded. You can give this download link to your friends by mail or instant messenger. If only wecould, we surely would! On the other hand, using file can actually save you money. No account or credit card is required to get started. Keep your files private,or send your download links only to friends or family. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Any file in anyformat can be uploaded and downloaded for free. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chatapps have limits to the size of files that can be transferred within their apps. The cost of that data transfer is covered by your internet service or the data plan onyour phone. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You don't need any special software installed tobe able to download your files. Using file, you can circumvent those limits without paying to upgrade your team chat service. filehosting provides an easypossibility for you to send large files to your friends. We have no file size limit. Our service is completely free for everyone. Alternatively you can choose toshare your download links on blogs, forums and social networking sites.
