And because of its modular design and choice of 13 different electronic functions, panels can be configured in any combination to suit the requirements of any residential or commercial building. The range also includes a vandal resistant option, Robur, which features an extra strong front section and frame for increased security.

As well as standard audio, video and display modules, all Bticino Sfera entrance panels can be configured with specialist cameras, including wide angled and night and day cameras for enhanced 24 hour security. Meanwhile, the introduction of inductive loop and speech control synthesis modules facilitate ease of use for people with hearing and sight problems. The new Bticino Sfera range has been designed with ease of maintenance in mind. Activities such as adjusting microphone volumes, changing name plates, and installing software updates can now be performed without removing the panel from the wall. Furthermore, the range has total installation compatibility with the Bticino Sfera modular panels that it replaces, and can be used to refurbish or upgrade existing installations. www.legrand.co.uk England and Wales company registration number 2008885.
